5G E-Smog Card

Description, mode of action and application

The basic approach of the *Doctor Herman 5G E-Smog-Card* is to protect the organism from the ubiquitous 5G radiation. Many factors had to be taken into account during the development of the product. For example, the biocompatibility, the selection of the frequency spectra, the correct set-up of the harmonization pattern according to the 5G waves, the correct carrier media, the validation and the reliability of the results.

Radio networks have existed since their discovery and development of the corresponding technologies. The first radio networks had very low power and transmission range. Science and industry had already recognized very early on that the expansion of radio networks had to take place in order to transmit larger amounts of data. At the latest with the development of mobile telephone, radio transmission underwent a revolutionary development. The first special frequencies were separated for radio transmission. Regardless of the effect on the human organism, this has been rapidly expanded.

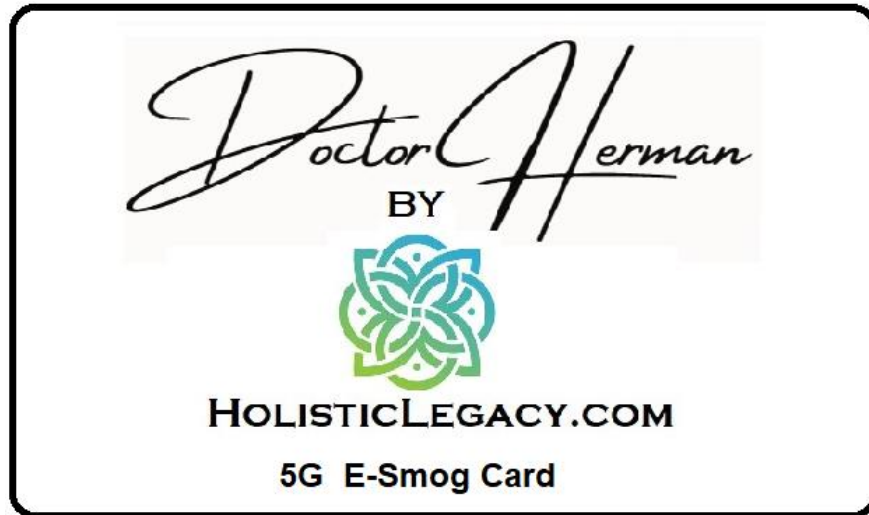

Where is the further development of 5G technology leading?

With the **Doctor Herman 5G E-Smog-Card** negative information from all mobile radio systems (including 5G), from LED and infrared radiation, as well as from e-smog-producing devices and lines can be vitalized.

Product Application

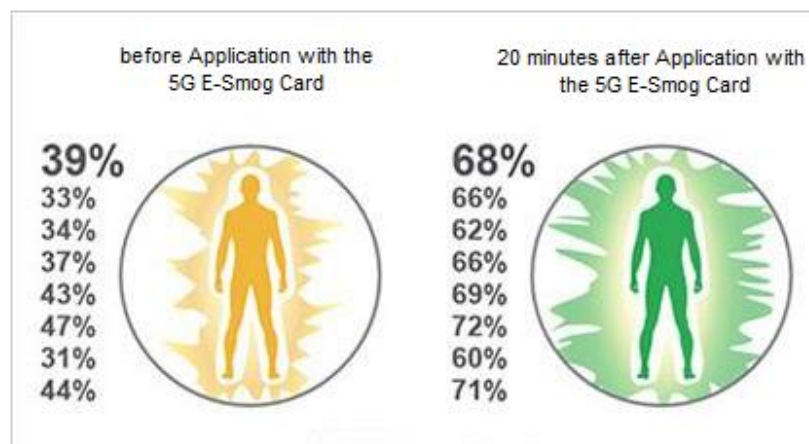

The **Doctor Herman 5G E-Smog-Card** is suitable for use on all electronic devices, especially transmitters and receivers. The **Doctor Herman 5G E-Smog-Card** can be worn directly on the body or in your pocket, handbag, mobile phone case or card case. The radius of action is 150 cm or 5ft.

The **Doctor Herman 5G E-Smog-Card** has the same size as a Credit Card

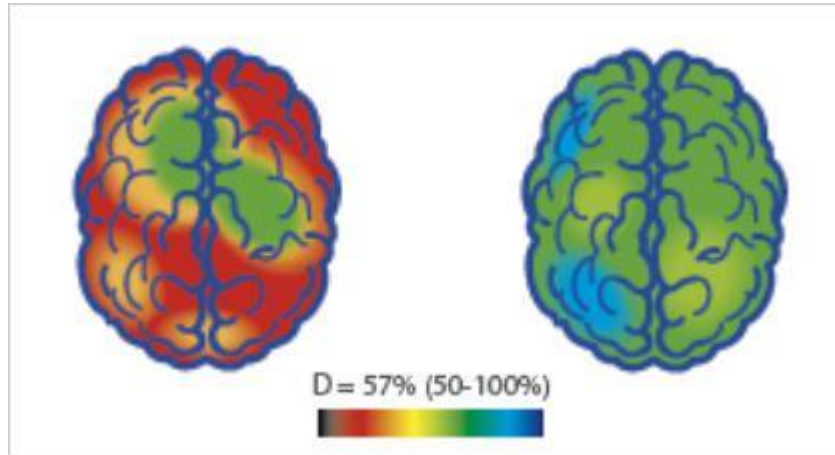

Test evidence and measurements

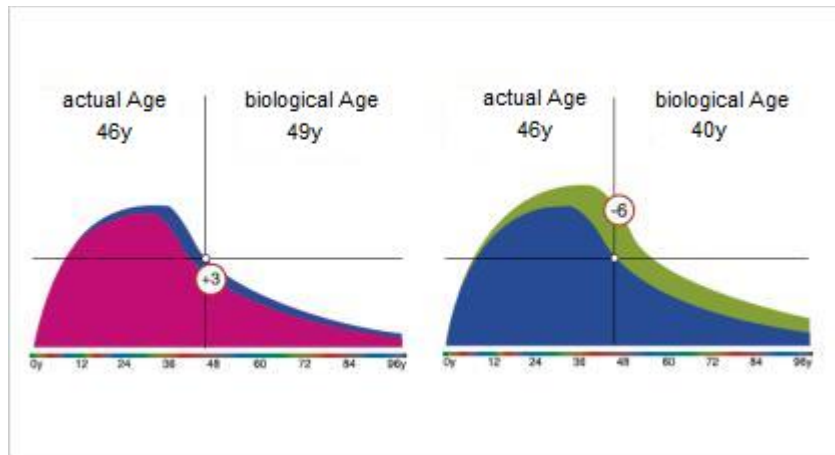

Example: Subject in a suitable laboratory, which was extensively measured before and after the application of the **Doctor Herman 5G E-Smog-Card** Subject male, 46 years old.

The image on the left shows the physical condition before the application with 39% health factor, the one on the right shows the condition with the **Converter** and a health factor of 68%.

The spline map shows the electrical activity of the brain. Very tense on the left without a **Converter**, much more balanced on the right with a **Converter**

Without using the 5G E-Smog Card, the gerontological curve shows 49 years as the "biologicalage", and after 20 minutes of using the **Doctor Herman 5G E-Smog-Card** it shows 40 years ("rejuvenation effect").

Conclusion of testing on the health campus of St. Elisabeth University, Germany "With this subject, we were able to prove once again that the autocorrelation IVG, neurodynamic matrix, biodynamic age, spline map brain activity, health index and other values improved by an average of over 80%. This after 20 minutes of using the 5G E-Smog Card!

Neutralize electro smog on the go and be protected from cell phone radiation!

Whether we're shopping, going out with friends, or just sitting in a café enjoying life, we're exposed to artificial electromagnetic radiation from different sources in all these places today. Smartphones have become an integral part of our lives and are almost always and everywhere with us. In many ways, they make our everyday lives easier or entertain us through social media platforms and exciting apps. But the smart devices do not only have advantages: The electro smog they emit is harmful to our body and can lead to complaints such as headaches, sleep problems and physical discomfort. In addition to mobile phone radiation, Wi-Fi radiation and Bluetooth radiation also affect our bodies when they are on the move – usually all day long. In order to ensure seamless accessibility, more and more mobile phone masts are being erected. The burden of new radio technologies (UMTS, LTE, 3G, 4G and 5G) to ensure optimal network coverage exacerbates the problem. Reliable protection against mobile phone radiation and other sources of radiation is required here – this is the only way to prevent electro smog.

The fact that the rapidly increasing exposure to unnatural electro smog can have negative effects becomes clear when you know that the lives of humans, animals and plants are controlled by natural electromagnetic fields. While electrosensitive people react particularly to the rapidly increasing exposure, more and more people are generally concerned about the harmful effects of mobile phone radiation, feel uncomfortable and defenseless.

Effective electro smog shielding and protection against mobile phone radiation of the *"Doctor Herman 5G E-Smog Card"*

By activating a natural protective shield, the *"Doctor Herman 5G E-Smog Card"* offers protection against electro smog on the go and in any place. Mobile phone radiation from smartphones no longer has any effect on your well-being and you can be sure of shielding yourself from electro smog at all times. You will notice that the *Doctor Herman 5G E-Smog Card* gives you a sense of security; because no matter where you are - thanks to the radiation protection of your mobile phone, electro smog can no longer harm your body. Experience your everyday life completely liberated and enjoy excursions and other leisure activities with the conscience of preventing exposure to electro smog. The effectiveness of products has been proven by scientific studies. The effectiveness is also reproducibly measurable – this is achieved through the use of commercially available frequency measuring devices.

With the *Doctor Herman 5G E-Smog Card*, you are accompanied by a reliable product that offers you demonstrably safe protection against electro smog - anywhere, at any time.

Note on scientific acceptance.

As a distributor, together with our manufacturer, we follow the obligation not to make any healing claims about the *Doctor Herman 5G E-Smog Card*. The statements and information made on the effects of the device are source-based, scientific studies, as well as user reports. We dissociate ourselves from any healing statements and promises of healing, as well as from statements of medical efficacy within the meaning of the Therapeutic Products Act (HWG) and the Unfair Competition Act (UWG).
